The CBA Child Rights Toolkit and Child Welfare Class Actions

The Child and Youth Law Section of the Manitoba Bar Association is enthusiastic to present two interesting and timely panels at this year's Mid-Winter Conference:

The CBA Child Rights Toolkit was inspired by the need to improve children's access to justice in Canada. The Toolkit is a valuable resource for legal professionals seeking to better understand and to apply a child rights-based approach to advocacy for children. Members of the national steering committee that led to the development of the Toolkit will be present to discuss the important principles behind its creation. This session will include Sarah Rauch and Christian Whalen as speakers.

This past June 2022, the Federal Court certified a class action suit against the Federal government brought on behalf of all First Nations (Status and Non-Status), Inuit, and Metis persons who were removed from their homes in Canada between January 1, 1992, and December 31, 2019, and placed into the care of individuals who were not members of the Indigenous group, community, or people to which they belong. This panel will bring together individuals that have been involved in this national class-action and in recent litigation seeking class-action certification relating the child welfare system here in Manitoba to discuss class actions based upon the discriminatory nature of the child welfare system. One of the lead plaintiffs in the Federal class action, Cheyenne Stonechild, and her lead counsel, Maxime Faille, will speak at the session.
