

Business Law Section Report 2021-2022

The MBA Business Law Section mainly worked towards revitalizing some of its activities, starting with the MBA 2022 Mid-Winter Conference. The Executive worked hard on brainstorming on this and thought of an IP / AI related topic, and in correspondence for organizing that, ended up working with the MBA Technology & IP Law Section on co-presenting for this session, which garnered a lot of enthusiasm and positive feedback from the presenting panel. Hopefully the momentum will be able to continue with more CPDs and meetings in addition to the Mid-Winter sessions for once the Executive turnover occurs later in 2022!
