

Entertainment, Media and Communications Section Report 2018-2019

On October 2, 2018, the Entertainment, Media & Communications Law Section held a joint event with the Technology & Intellectual Property Law Section entitled "Research and Rights Clearance". The featured speaker at the event was Elizabeth Klinck, who gave a captivating presentation on the work that she does as a rights clearance specialist in the film industry. The event was well-attended and well received. Earlier this year, on February 21, 2019, members of the Section met with the Executive of the Robson Hall Sports & Entertainment Law Group, to discuss career opportunities in the fields of sports and entertainment law. Our Section looks forward to more events in the upcoming year and welcomes input from Section members.
