

Small, Solo and General Practice Section Report 2017-2018

The General Practitioners' Section has been renamed Small, Solo and General Practice Section to more accurately reflect our section's area. It is also to coincide with the National Section's name.

Our Section does indeed support those in small and solo firms. We understand the majority of lawyer's in Canada practice in this type of firm.

An example of service to our members involves accessing free research. Our Section held a further information session on April 6, 2018 in Brandon, Manitoba. At that time, we will also attempted to extend the membership in our Section to include more rural practices.

Contact us for more information on this and other advantages to belonging to this invaluable Section.

Submitted by,
Sidney Laviolette, Chair, MBA Small, Solo and General Practice Section
