

## **Small, Solo and General Practice Section Report 2019-2020**

The General Practitioners' Section has been renamed Small, Solo and General Practice to more accurately reflect our Section's area. It is also to coincide with the National Section's name.

Our Section had a CPD on December 16, 2019 on tips for small and solo firms if a disaster occasioned a limited practice. Barney Christianson, Q.C. and Robert Dawson gave an ominously current presentation on how small firms could continue their business in the face of disaster.

In addition, our Section has been dealing with the COVID-19 Pandemic on behalf of our members including a well participated CPD via Zoom on April 3, 2020 with a presentation by Robert Dawson regarding useful tips for small firms on dealing with the virus and keeping their practices operating. The Law Society of Manitoba also presented direction to our members on the obligations of smaller firms notwithstanding the pandemic.

Contact us for more information on this and other advantages to belonging to this invaluable section.
