

Wills, Estates and Trusts Section Report 2021-2022

The Wills, Estates and Trusts Section has been busy over the past year. Our Section again participated in the January MBA Mid-Winter Conference, wherein our session on executor duties and obligations had one of the highest attendance rates! We also hosted well-attended sessions on "Planning for Beneficiaries with Disabilities", "Trust Issues: Variation and Early Termination in Manitoba", "Issues Respecting Property Held for Minors", and "Tax and Estates Basics".

We have one of the largest, if not the largest MBA Sections, and our members remain very involved, with excellent attendance rates at all sessions. The Executive and its members also continue to represent wills and estates practitioners by providing feedback on projects and proposals from the Law Reform Commission, the Law Society and the Manitoba Bar Association.

In the coming year, we hope to continue offering our membership a series of excellent CPD topics and plan to continue representing their interests in all things Wills, Estates, & Trusts.
